

## IGNASI ABALLI "FROM THE WINDOW\_3"

### WHAT IS CONFINEMENT FOR YOU?

For me, confinement is an opportunity to rethink things, to reflect and to recover a slower pace. We should come out of this period more aware of the need change of many things, in no way should we recover "normality" understood as that which existed before the confinement.

### WHAT COLOR DO YOU ASSOCIATE THE FUTURE WITH?

For me the future is white, like a sheet of paper before writing anything.

### WHAT IMAGE DOES CONFINEMENT SUGGEST TO YOU?

The confinement suggests to me the image I am sending you: the sunlight drawing on the open notebook. An ephemeral image that slowly but surely transforms.
