## MARTA MARCÉ "FROM THE WINDOW\_4"

The confinement for me has been a time of deeper reflection of the globalized capitalist system. And I'm not the only one, people have stopped running, and you can ask a lot of questions about the life we lead. Also assess what alternatives there are to change the system towards a more ethical and fairer society. I have been homeschooling my son, but also reading, listening a diversity of talks and documentaries, and sharing them. I think I have been painting more in the studio.

## WHAT COLOR DO YOU ASSOCIATE THE FUTURE WITH?

The color is hard to tell, but if I need to choose one I would say turquoise that symbolically would represent life, water, and so nature.

## WHAT IMAGE DOES CONFINEMENT SUGGEST TO YOU?

An image that conveys the confinement would be the space where the planet floats and rolls. We are accompanied by planets, stars, black holes, all of it moving energy that solidified in infinite formations, and at the same time in this immensity we are alone in having life! We need to be aware of this extraordinary fate and take more care of the planet with everything that lives on it.
