“FROM THE WINDOW_8”

WHAT IS CONFINEMENT FOR YOU?

Confinement has been for me a collage of new sensations and experiences from which I highlight the break. With it I have obtained a space to be able to lie down and think, where time seemed to stop allowing a detailed analysis of what was around me.

WHAT COLOR DO YOU ASSOCIATE THE FUTURE WITH?

I like to think that the future will be an amalgam of colours where everyone will have their moment. From all of them I choose red, a colour that symbolises suffering but also passion, a duality that will surely be present.

WHAT IMAGE DOES CONFINEMENT SUGGEST TO YOU?

Confinement suggests me the vision of a wall that restricts our freedom and where we project our worries, anxieties, fears and thoughts.
